

Where is Mama Boar hiding? The forest's food supply is dwindling. Every evening, the little boars Charlie and Theo have to eat the same shrivelled rose hips and pine cones, which is why Mama Boar sets off for the city one night in search of food. When she doesn't return the next day, Theo and Charlie follow her, determined to find her. The city is very different from the woods. People and cars swarm everywhere. Fortunately, Charlie and Theo quickly make new friends who know the city, inside and out, and who can help them in their search.

- A wonderful story that also includes facts about different animals
- "Urban Wildlife" – a hot topic that fascinates children
